Families

Bernalillo Academy believes children's long term success is dependent on the inclusion of their family in the therapy process. With therapeutic support and training, parents will learn new behavioral techniques and communication skills to support and maintain their child's new behaviors upon return to their home, school and community. We respect and incorporate the values, cultures and opinions of our families as an essential piece of successful treatment outcomes.

Program Model

Bernalillo Academy focuses on behavioral change through dynamic approaches to treatment which include Applied Behavior Analysis-based therapies (ABA), group, individual, family work, Trauma Informed Therapies and milieu, Psychiatric care and Equine Therapy. We utilize a strengths-based model that focuses on learning, practicing and generalizing these skills into more natural environments. Bernalillo Academy develops individualized treatment programs that are based on best practices.
